

# FIFTY-FIRST ANNUAL REPORT

City of  
**RUTLAND**  
**VERMONT**

CITY  
BUSINESS  
SECTION

*"Each and every one of us has a solemn obligation under God to serve this nation in its most critical hour—to keep this nation great—to make this nation greater in a better world."*

**FRANKLIN D. ROOSEVELT**

*from his message to Congress,  
January 11, 1944*

## *Foreword*

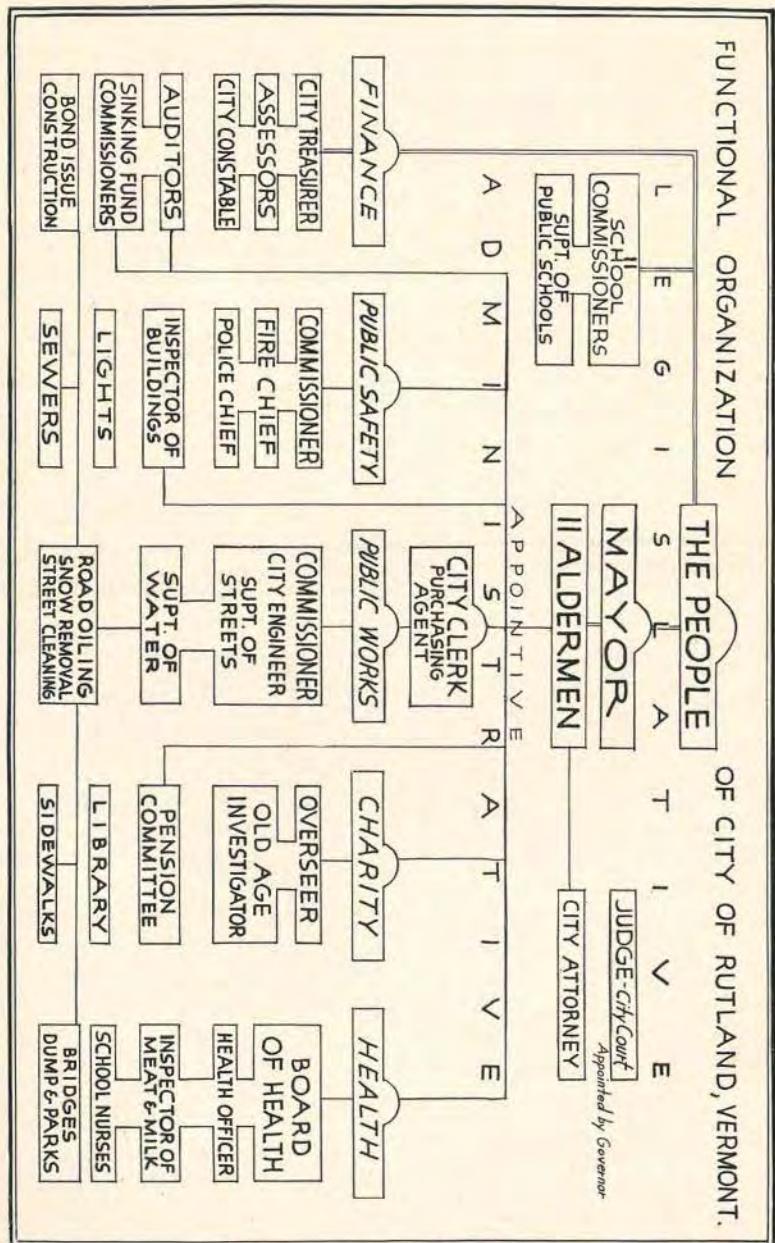

The purpose of this report is to give to the citizens of Rutland an analysis of expenditures made by your City Government during the year 1943 with a review of activities and services rendered.

This is the fifty-first report issued to the citizens of Rutland.

This year our primary interest is in winning this war as rapidly and as completely as possible. To do so, we shall be called upon to give and make greater sacrifices in order to support every move and plan toward such an end.

The Schools are now able to offer a full trade school course for the youth of Rutland. Many of our young men have been able to take their places in defense industries during the war and to be assured of a desirable occupation after the war.

Constructive criticism is always welcome. Should any questions arise, the official records of the City are open at all times for inspection by any interested citizens or by the representatives of any civic organizations.

## MUNICIPAL DIRECTORY

MAYOR  
Hon. Wayne N. Temple

BOARD OF ALDERMEN

## MAYOR'S MESSAGE

*To the Citizens of Rutland:*

It is with pleasure that I transmit this report covering the activities and accomplishments of the various departments of the City of Rutland for the fiscal year 1943.

This is the fifty-first annual report of our city. The reports of the various departments are detailed and show where and how the money of the city has been received and expended.

However, I do wish to take this opportunity to call to your attention matters of vital importance to all of us.

This year, as has been the case since 1931, we conclude our financial year with a deficit. The amount of the deficit for the year 1943 is \$32,416.16. I am sure a large number of our citizens do not understand how this is brought about. Under Act 196, passed by the Vermont State Legislature in the year 1933, the city council cannot assess annually upon the grand list an amount in excess of two hundred and ten cents on each dollar of said list for general city purposes. At the time this act was approved the city was paying only \$37,000 from current taxes on the bonded debt. In the year 1943 \$75,000 on the bonded debt was paid from current funds, and \$79,000 is set up in our 1944 budget for this purpose. In addition, the voters, in 1937, authorized a Pension Retirement Plan for all city employees. The expense of this plan to the city in 1943 was \$29,000. In March, 1939, the voters authorized a Workmen's Compensation Insurance for city employees. The annual cost of this insurance is \$3,000. Thus, the increased payments on our bonded debt, plus expense of pension and compensation plans, total \$70,000. No additional tax has been authorized to take care of these extra expenses—thus, the only answer is a deficit each year.

Our increased bond payments reflect clearly in our total bonded debt and interest payments. As of December 31, 1942 our bonded debt, less sinking funds, amounted to \$693,365.87. As of December 31, 1943, the amount is \$609,597.28, a reduction of \$83,768.59.

Despite an increase of a special tax of 12 cents for the Department of Education, as approved at the March, 1943 election, our tax rate for 1943 was \$4.00, a reduction of 10 cents from the 1942 rate.

The airport was officially turned over to the City of Rutland by the Federal Government late in the summer of 1943. The people voted a bond issue of \$60,000 to construct a hangar and

other necessary services, to be built as soon as materials are available and the Airport Commissioners deem it advisable to proceed with the work.

The Playground Committee started a long range program in 1943 to provide suitable recreation for our young people, and an increased appropriation is set up in the budget for 1944 to enable the committee to enlarge the activities the coming year.

After many years of effort to secure an industry to take over the Colonial Marble plant, it is a pleasure to report that the property has been purchased by the Great American Industries, Inc. The new owners are now making extensive repairs, expecting to have the plant in operation by April 1st. I am pleased to welcome this company to our City and feel confident that their decision to locate here will prove a happy one for all.

At this time I want to congratulate the citizens who have made it possible to meet War Bond issues and Community Chest funds to which they have been asked to contribute.

At the request of the Board of Aldermen, a committee for Post War planning was selected. This committee has organized and is now working on plans to provide projects that are economically sound and from which the city will benefit, at the same time giving employment to many men and women who will return to Rutland after the war is won.

During the past year the city charter was revised, and, while it is not perfect, some changes for improvement have been made.

At this time I want to give due credit to Mr. James C. Dunn who for so many years faithfully served this city in many capacities including that of Mayor and Commissioner of Public Safety.

At the present time over sixteen hundred and fifty men and women of our city, nearly one tenth of the population, are in the armed forces of our country. To these patriotic defenders of the Republic, we, at home, can offer no better proof of our devotion and gratitude than to make Rutland, their home town, a better place in which to live, work and play when they return to civilian life.

In conclusion I wish to thank the members of the Board of Aldermen, officials and employees of the City of Rutland for the loyal and efficient service they have rendered during the past year.

Respectfully submitted,  
WAYNE N. TEMPLE,  
*Mayor.*

INITIATIVE LEADERSHIP and RESPONSIBILITY PRIDE IN  
AMERICAN INSTITUTIONS DESIRE FOR BETTERMENT

Report of the  
BOARD OF SCHOOL COMMISSIONERS

*To the Mayor, City Council, and Citizens of the City of Rutland:*

The schools have met the challenge of the times by continuing to teach the fundamental things essential to childhood and youth and to help meet, as well, the demands of a country at war. Nothing important has been neglected but much that is new has been added to better prepare youth for war service and to give children the experience of working for their country. We are proud of the record our school pupils have made in salvage, in investment, and in understanding. Reports given to the public through the press have described more in detail this record.

Our school enrollment has continued to decline during the past year. This is due in part to a declining birth rate in the 1930's, which reached a low of about two-thirds of normal in 1933, and to the fact that many families have moved from the city to engage in war work in other localities.

We have found it impossible to reduce costs at the same rate as enrollment for numerous reasons, many of which we enumerated last year. In making our budget for 1944, we planned to reduce costs by closing one school and by employing six less teachers, provided conditions remain the same with respect to enrollment. The savings from these economies will not be fully realized until 1945 because our contracts with teachers and janitors run until July 1, 1944; consequently the change in cost will only be in operation for a part of the year 1944.

Many of our expenses continue at the same level regardless of the decrease in the number of pupils. For instance the fuel cost at Rutland High School in 1933 was \$1,856 or \$3.03 per pupil while in 1943 fuel cost was \$2,898 or \$5. per pupil. At the Meldon School fuel cost \$1,002 or \$2.42 per pupil in 1933 and has advanced to \$1,606 or \$5.37 per pupil in 1943. Janitor service has advanced from \$3.85 per pupil to \$7.83 at the High School and from \$2.56 to \$5.15 at the Meldon School in this ten year period. These increases are in part due to increased cost of fuel, to higher salaries and to a decreasing number of pupils. Fuel and janitor service have to be provided in about the same quantity regardless of the number of pupils.

Our teachers have felt for some time that a definite salary schedule would be desirable. A committee of the Board studied the matter and made a recommendation at the December meeting. The schedule as adopted by the Board follows:

## CITY OF RUTLAND

Years Experi- ence in Rut- land	WOMEN				MEN	
	Elementary Training		High School Training		Training	
	3 Years	4 Years	4 Years	5 Years	4 Years	5 Years
2	\$1,100.	\$1,200.	\$1,400.	\$1,500.	\$1,800.	\$1,900.
3	1,150.	1,250.	1,450.	1,550.	1,900.	2,000.
4	1,200.	1,300.	1,500.	1,600.	2,000.	2,100.
5	1,250.	1,350.	1,550.	1,650.	2,100.	2,200.
6	1,300.	1,400.	1,600.	1,700.	2,200.	2,300.
7	1,350.	1,450.	1,650.	1,750.	2,250.	2,350.
8	1,400.	1,500.	1,700.	1,800.	2,300.	2,400.
9	1,450.	1,550.	1,750.	1,850.	2,350.	2,450.
10		1,600.	1,800.	1,900.	2,400.	2,500.

Minimum requirements for new entrants in Rutland Public Schools:

**Training:** Three years in the elementary grades. Four years in the high school.

**Experience:** Two years in all schools.

The Board of School Commissioners will pay \$100 a year extra for certain special services if, in the judgment of the Board, circumstances warrant such a payment. Elementary principals will be paid extra at the rate of \$25. per room for each classroom used for instructional purposes.

Some credit may be allowed for experience gained outside of Rutland above the minimum two years, but in no case more than they would have gained in the same number of years in the Rutland schools.

This schedule shall not be interpreted so as to reduce the salary of any present member of the teaching staff.

\* \* \*

While this schedule advances a few salaries, its main purpose is to state in writing the policy of the Board and to enable us to compete on equal terms with other places in Vermont, especially at the high school level.

We became aware about a year ago that a better insurance coverage could be secured for less money by increasing the total

## SCHOOL DEPARTMENT

amount of insurance and by making certain other changes. The total insurance carried on buildings and contents was raised from \$664,500 to \$686,000. The rate on contents was reduced from an average of about 73 cents to 40 cents. The annual cost of insurance on buildings and contents has been reduced from about \$2,100 a year to about \$1,800 a year.

We believe that we chose the most opportune time to establish a trade school in Rutland. The defense program of the Federal government and the liquidation of the NYA has resulted in the assignment to Rutland of valuable machines and equipment without local expense. Title still rests with the State of Vermont or the National Government but there is every reason to believe that the equipment will be given to the city permanently. A fair valuation is about as follows:

1. Machine Shop	23 machines and tools	\$28,385.
2. General Shop	machines and tools	660.
3. Welding Shop	machines and tools	2,700.
4. Clerical equipment	desks, chairs, etc.	950.
5. Sewing equipment	30 machines and other equipment	2,300.
6. International truck		1,200.
7. Lunch room equipment		140.
	Total	\$36,335.

The school budget for 1943 provided for expenditures in the amount of \$196,336 but we spent \$204,796.46. After the budget was adopted in November, 1942, the people voted an additional tax of twelve cents on the dollar of the grand list to provide funds for an increase of 10 per cent for all school employees so all salary items were advanced. The price of fuel has advanced and to protect ourselves we bought more than anticipated which accounts for an increase of \$2,200 over the budget estimate. In 1943 we were in a position to pay for 200 tons of coal to be used in 1944 which increased the cost for the current year. We estimated maintenance costs at \$9,500 but we spent \$10,831. Budgets will be a bit uncertain for a few years because no one knows what will happen to prices.

The repair and improvement of buildings and grounds has been continued. The replacement of obsolete plumbing equipment has been discontinued for the time being because we cannot get new units. This situation is not without advantage because we have used the time and money to make some very necessary improvements to school grounds. Last year the area east of the shop at Rutland High School was graded and im-

## CITY OF RUTLAND

proved and cement walks were installed at Kingsley and Meldon Schools. In the summer of 1944 it is planned to do much needed cement work at Lincoln and Watkins.

We take pride in the school program offered our children and in the care of the public property entrusted to us. We look forward with hope and confidence to the future.

Respectfully submitted,

BOARD OF SCHOOL COMMISSIONERS,

By F. E. Quigley, *President.*

Rutland, Vermont

February 7, 1944

## Report of the SUPERINTENDENT OF SCHOOLS

*To the Board of School Commissioners, the Mayor, the Board of Aldermen, and the Citizens of the City of Rutland:*

The children of America have been able to continue to attend school, to eat, and to enjoy nearly all the usual good things of life in spite of the most devastating war of history. Sometimes it seems wrong for us and our children to live such normal lives when the degree of suffering is so intense in other parts of the world. The advantages of free enterprise in a democracy are so evident and the protection of our geographic position are so fortunate that we may well thank God for both. It is our hope that all the children may be led to understand the heritage which has come to us because of the sacrifice of others and be willing to bear the inconvenience of wartime life in America.

The individualism which has made America great has not always been recognized in the schools. We are now making a greater effort to recognize the unique needs of the individual child.

Every one is vaguely conscious of the individual differences in children. Even in a family of two or three children there is a great difference in ability to make progress in school or to meet

their responsibilities as members of the family group. In a school room of thirty or more we are bound to find great variation in ability to do the tasks assigned. Teachers have given lip service to the theory of individual differences for many years but the organization of the school and the limitation of time has prevented them from doing much about it.

The schools of Rutland have had special classes and special instruction for a limited number of pupils for a number of years. Our remedial teacher, Mrs. Mildred Cardell, deals every year with twenty-five or thirty pupils from grades four, five, and six of all elementary schools wishing to take advantage of the service. This work is on an individual basis and each child is helped in the areas where his need is the greatest. Often the problem is one of social adjustment involving wrong attitudes and habits built up in both the home and the school. The inability of pupils to make the necessary adjustments to school and to life are about as likely to occur with high grade pupils as with those of more limited talents. The service is, therefore, designed for all types of pupils whose needs the school has failed to meet. In many cases the failure is because the child has moved so often that he has had no chance to become adjusted to school work or because irregular attendance has produced the same result. It is hard for some parents to realize that school attendance is the child's major business and that full time should be devoted to it.

The beneficial results of the remedial work now being done are so evident that I believe it is desirable to extend the service to more pupils. At the present time it would appear possible to extend the advantages of this type of work to grades three, seven and eight without increasing the cost for the next school year. The changes in school organization already planned by the Board and the decrease in the number of pupils makes such a program possible.

A hot noon lunch served at the school promotes the health of school children, furnishes a worth while work activity for many, and may easily be an economy for the individual family. Rutland covers a large area for the number of people living in it, hence a considerable number of our young people have to walk too far in the limited time of the noon hour. The Longfellow and Watkins Schools have served a good lunch at a low price for several years to the children who desired it. This year Rutland High School and Meldon School have started hot lunch projects. The Dana School plans to start early in February, 1944. At the present time the Federal government reimburses each school to the extent of nine cents per type A meal served. There are no complicated rules, as yet, about reimbursement so everyone is quite happy to receive the money each month which enables

the school to serve good food at reasonable prices. The number of meals served during the month of January, 1944 and the price to each pupil is as follows:

School	Number of pupils served	Price per meal
High	1,496	20c
Longfellow	2,028	10c
Meldon	2,636	15c
Watkins	1,334	10c
<hr/>		
Total	7,494	

An observer might think the school children are spending too much time on salvage, especially paper. The answer to this question depends on the educational values being derived from these activities. The writer believes that the part taken by our young people in salvage drives is beneficial in many ways.

1. The children feel that they have a part in the war effort.
2. Good citizenship is fostered by working for our country and by conserving our resources.
3. The regular school subjects become more real when related to actual business transactions.

The changes in the social and economic life of the American people which have been going on for a generation and which have been greatly accelerated by the war are bound to modify the program of the public schools. The schools are one of the principal institutions developed by the people to prepare children and youth for a better life and to earn a better living. In the early days of our history a modest amount of time spent in school on a limited course of study met our needs. But as our social and economic life becomes more complicated the schools are being asked to assume a larger responsibility regarding the preparation of the young for successful living.

What the demands of the future will be with respect to education no one can predict with any degree of certainty. While the schools have modified and improved the program of instruction to a marked degree during the last generation, the needs of society seem to require additional changes and improvement.

I feel that the people of Rutland may well consider the social and economic advantages of providing:

1. Additional facilities at each school building for recreation.
2. Additional means for protecting the health and promoting the physical well being of all school children.

## CITY OF RUTLAND

3. A realistic program of adult education involving the employment of a full time director and such part time instructors as may be necessary.
4. A pre-school program which may include both nursery schools and kindergartens.
5. An improved program of guidance which will provide adequate time to make it effective and which will provide personnel competent to meet all requirements.
6. Work experience as a part of the education process.
7. For making such changes as are necessary to keep **all** youth in school until advanced to a higher institution or well placed in industry.
8. Means to locate gifted children and give them the education needed to develop leadership.

This list might be extended but enough has been included to show that education is and always must be a changing and dynamic affair. The improvements to be made in our City depend upon the quality of our leadership, the ability of the people to discriminate between what is important and what is less important and the amount of money available.

At the close of school in June, 1943, three of our able teachers retired. Nora B. Anthony had served as a teacher for forty-five years. Louise A. Branchaud had served as a teacher for forty-six years. Mabel H. Gleason had served as a teacher for forty-six years. This is an enviable record for these three teachers and shows devotion to our schools and to the children of the City. May they all live long to enjoy freedom from exacting time schedules.

The success of a school system depends in no small degree upon devoted and competent teachers and upon cooperative and understanding parents. The Rutland schools are fortunate in having many teachers and patrons in the above categories. It seems certain that the years ahead will require more thinking and planning on the part of both teachers and parents if our young people are to be properly prepared to win the battle of life.

Respectfully submitted,

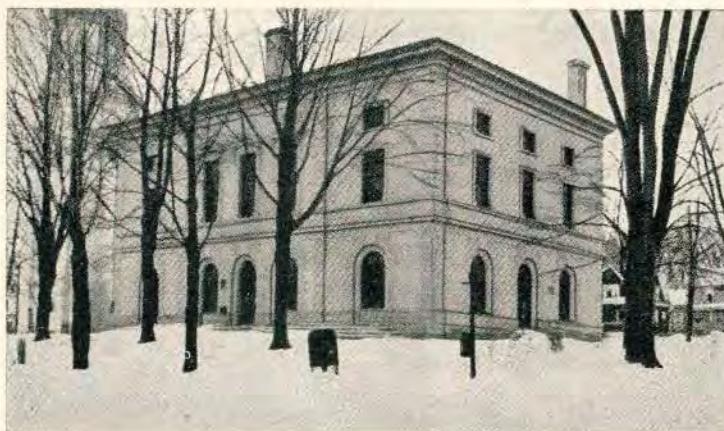

WILLIAM W. FAIRCHILD,  
*Superintendent of Schools.*

Rutland, Vermont

RUTLAND FREE LIBRARY

## RUTLAND FREE LIBRARY

### Report of the TRUSTEES AND DIRECTOR

**City's appropriation—\$6,000.00**

*To the Mayor and the Honorable City Council:*

Gentlemen:

In submitting the 58th Annual Report of the Rutland Free Library, prepared by Marion Humble, Library Director, I would like to acknowledge with appreciation the helpfulness and generosity of the City in regard to the library furnace and boiler. When it was decided not to install a new boiler for conversion to coal, the present boiler was thoroughly repaired by the City, at a cost of several hundred dollars. In addition, the boiler was insured at City expense.

There were several changes in the staff during 1943. Miss Cynthia M. Gorton, Librarian for many years, who had begun her work in the Rutland Library while in high school more than twenty years ago, resigned. Miss Marjorie Loveland and Miss Elsbeth Smith also resigned; Miss Vivian Hewitt, who has been

### PUBLIC LIBRARY

33

on the staff for sixteen years, was the only continuing member of the staff.

In engaging Miss Humble as Director of the Library, the Board of Trustees are hopeful that with her library experience together with her wide experience in adult education and publicity, it may be possible to bring the Rutland Library to a greater usefulness in the community.

Very truly yours,

FLORENCE R. LAWRENCE,  
*President, Board of Trustees,*  
Rutland Free Library.

*To the Board of Directors, Rutland Free Library Association and to the Honorable City Council:*

### COMMENTS ON STATISTICAL REPORT (For Statistical Report see City Finances Section)

1. The Rutland Library has been seriously crippled in many ways in 1943. All public libraries have inevitably suffered wartime restrictions of service during the past two years, but as the Rutland Library was already considerably below standard in financial support and in service, the further curtailments were severe.

**In financial support**, the City cut the annual appropriation from \$6,500 to \$6,000, about 40 cents per capita. The standard for minimum service recommended by the American Library Association is \$1 per capita.

**From the staff**, all but one member resigned during the year.

**In fuel**, the amount of oil available and the money for oil were curtailed, necessitating closing the library Sundays, Mondays, and Tuesdays during the first five months of 1943, only 279 days open for circulation as compared with 301 in 1942, only 33 Sundays open, compared with 48 in 1942. It was necessary to close the Auditorium, the second floor Periodical Room, and the Vermont Room for all except four summer months.

**The gasoline shortage** and consequent inability of many people to use cars has definitely reduced library use.

**The four per cent decrease of population** in Rutland since 1941, and the departure from Rutland of many of the young men and young women who formerly used the library, as well as increasing war work of many Rutlanders, have decreased the use of the library.

2. In the face of all these curtailments and restrictions, the Library Board have valiantly carried on, meeting each emergency as it arose. Association endowment interest and special funds have been drawn on so that the fiscal year showed no deficit; fuel was conserved by boarding up the stairway to the second floor, and maintaining a lower temperature on the main floor; a smaller staff has been supplemented by part-time assistants and student pages.

3. Libraries throughout the country are finding that though recreational reading everywhere has decreased, demands for information and for practical books and technical books are tremendously increasing. The book business as a whole increased in 1943 from 20 per cent to 30 per cent over that of 1942. Technical books, war books, text books, books of information including dictionaries and encyclopedias, and pocket-sized books have leaped into incredibly large sales figures. As the Rutland Library book collection is strengthened in these areas we shall probably find new readers and students among the men and women who need practical help in their new work, and in training for new jobs, both war jobs and post-war jobs.

4. Up-to-date information in periodicals and in pamphlets supplements books on subjects such as Aviation, Radio, Electronics, Plastics, Post-war Planning, Social Welfare. We have started an Information File of Pamphlets and Clippings, with student assistance, and have increased our magazine subscriptions for 1944.

5. We must face the fact that the Rutland Library building is not conveniently near all Rutlanders, either in their homes or at their work. Perhaps we should inaugurate a "books-by-mail" service to Rutlanders who do not live near the building; perhaps we should circulate books for two months instead of two weeks; perhaps we should encourage more renewals of books by telephone; eventually, I believe, we should open many library stations or branches in sections of the city farthest from the library, in stores or in homes, in charge of local clubs or individuals, with regular visits by the librarians for consultation about books. If Rutlanders cannot conveniently come to the library, we must take the library to them.

#### COOPERATION WITH COMMUNITY AND NATIONAL GROUPS

We have sent 6,494 books to camp library collection headquarters in New York and Boston during the year.

Local community groups to which special cooperation has been given:

Lions Club Civic Improvement Committee, material on delinquency;  
Coordinating Council, assistance in securing Dr. Eveline Burns as speaker, and exhibit of books and pamphlets at her lecture;  
Vermont Conference on Social Work, exhibit of books and pamphlets;  
Rutland Woman's Club, exhibit of books and pictures of old Rutland;  
Hobby Club, exhibit of books on hobbies, and on drawing;  
American Association of University Women, October meeting in library, with book exhibit, and talk by Director;  
Girl Scouts, talk on use of library;  
Fortnightly, November meeting, talk by Director, book exhibit;  
High School Library Club, talk by Director, book exhibit;  
Castleton Normal School, talk by Director, book exhibit.

Exhibits and talks in the library have included:

A Bird Talk, by Mr. Richard M. Marble, May 8th;  
Mid-Vermont Artists' Summer Exhibition, June 29th to October 20th;  
Open House, Children's Book Week, November 14th;  
Posters and photographs from the film, "Lassie Come-Home," November and December.

The Outdoor Reading Room was popular through the summer.

#### BOOKS IN DEMAND — REQUESTS FOR INFORMATION

The two best-sellers of 1943 were among the books most in demand in the Rutland Library: One World, by Wendell Willkie, and Under Cover, by John Roy Carlson. Others were:

The Robe, by Lloyd Douglas;  
So Little Time, by John P. Marquand;  
My Friend Flicka and its sequel Thunderhead, by Mary O'Hara;  
Lassie Come-Home, by Eric Knight (showing the influence of the movies);

Paris-Underground, by Etta Shiber;  
The Valley of Decision, by Marcia Davenport.

Requests for information on practical subjects have increased recently, including:

- Preparation of soil for vegetable gardens
- Mechanical drawing
- Radio production
- Airports
- Airplane design
- Renewing old furniture
- Hotel management
- Clock repair
- Personal airplanes for the post-war period
- Pulmotor construction

#### RECENT DEVELOPMENTS

When the Auditorium was closed at the end of October, we suggested that the Mid-Vermont Artists hang some of their paintings in a permanent winter exhibit in the main library. The exhibit has resulted in many favorable comments and several sales of paintings.

We have shelved the most frequently consulted periodicals on the stairway, saving fuel and energy; students and staff like this arrangement.

The hours of opening of the library were increased two hours per week in October, providing continuous service, 9 a.m. to 9 p.m. on three days each week; the closing at supper time had been reported as inconvenient for people on their way home from work.

#### ACKNOWLEDGMENTS

The Library is fortunate in having many friends who have given us books, sheet music, a Victrola, records, and magazines; in having a devoted Board of Directors and Officers who contribute many hours every month to problems of policy and details of management; in the cooperation of the Board of Aldermen who have appropriated for the library for 1944 the maximum percentage they are empowered to grant by the City Charter and Vermont State Law of 1905; in having a loyal library staff who believe that the Rutland Free Library must be an important and necessary factor in community education, recreation, and prosperity. To all these I express my earnest appreciation.

MARION HUMBLE,  
*Director.*

#### Report of COMMISSIONER OF PUBLIC WORKS

*The Honorable City Council, Rutland, Vermont:*

Gentlemen:

The annual report of the Department of Public Works for the year ending December 31st, 1943 is herewith submitted.

Due to wartime restrictions, new construction has been deferred until such time as these restrictions may be lifted, and labor and material again become available for civilian activities.

This department has tried to maintain its municipal functions in a manner consistent with economy of operation and preservation of the health and security of the people it serves.

Some relaxation in the exercise of Civilian Defense activities has been made, due to the change in the need for these, but the organization within the department is still set up to function at once when needed, and all test blackouts were promptly responded to by this department.

The department has had its difficulties caused by labor and material shortages; delays in obtaining needed repair parts; and in other ways; but so has everyone else, and when we read and hear and see pictures of the loss of life, property damage, and terrible hardships endured in other countries, we can well be grateful that we live in America.

There has been a great deal of national discussion relative to post-war planning and much has been written and spoken about it.

There is a unanimous feeling that blue prints, specifications and rights-of-way should be ready for immediate construction by Public Works to take up the slack in employment during the transition period required by industry and business to change from war to peacetime activity. This period is of course not closely predictable, either in its start or duration, but has been variously estimated to last from 18 to 24 months following the end of the war.

It is felt that all plans should be solely for utilitarian projects that local communities want and are willing to finance in whole, or in substantial part, if aid is granted, and that special funds be available for the preparation of such plans.

It is impossible in this report to investigate the varied opinions and ramifications of what part Public Works will play in post-war planning, but its real value in this connection will be predicated on having detailed plans of worth while projects ready to start actual construction when the time comes.

The Street Department maintained the 60 miles of streets in a creditable manner, although as in 1942 it was not possible to obtain as much tar and asphalt as was applied for, and so only those sections were treated which surveys indicated needed it most.

40,303 gallons of 50/50 blend of 40 viscosity and TH A-1 Tar were applied to the streets, and were covered with 1,010 cu. yds. of sand, treating an area of 171,110 sq. yds. at an average cost of \$0.041 per sq. yd. Cold patch material was made by mixing 5,050 gallons of tar with 237 cu. yds. of sand and 50 yds. of pea stone, at an average cost of \$3.85 per cu. yd.

A careful watch was kept for small surface breaks and these were patched as soon as practicable.

Several storms caused unusual conditions. One in late June—of brief duration, but with high rainfall and wind—did much damage, especially to trees. Total precipitation for the year was 42.12", of which 23.16" fell in May, June, July and August.

There were two major snow storms, and the total fall of snow in 1943 was 71.46 inches as compared to 33.06 inches in 1942. January snowfall was 20.53 inches and November 25.00 inches. The November storm was most severe and came without warning. High moisture content, driving winds and deep drifts caused much difficulty. The truck plows were unable to break through many drifts and had to be helped by the heavy tractor. The conditions caused by the blizzard were not entirely local, however, and judged by reports from surrounding places, Rutland was plowed out, cleaned up and had traffic restored much quicker than elsewhere.

During 1943 over 15,000 cu. yds. of snow were loaded and removed from the business district, and many loads of slush and ice were taken from other streets. In the November storm, finding it impossible to load the snow by hand, a large power shovel was hired and the work was thereby expedited. Snow removal cost averaged \$.32 per cu. yd.

1,005 cu. yds. of sand and 43½ tons of salt were applied to streets and sidewalks because of ice, and sand boxes were set out in 49 different locations.

Due to a settlement caused by a crack in the trunk sewer it was necessary to remove and replace the concrete pavement at the corner of West and Wales Streets. 130 sq. yds. of 7" reinforced concrete were laid at an average cost of \$3.17 per sq. yd. One-half the cost of the total job was paid by the State Highway Department.

\* The Street Department did work for other departments, notably the swimming pool and airport.

Before opening the pool this year it was discovered that the concrete ledge supporting the pool floor margin had broken away from the pool wall, and it was necessary to break the floor away for about half its perimeter, replace the ledge and re-pave the broken area. This and other repair work was paid for by the Street Department, according to an aldermanic action of some years ago which requires the Department of Public Works to maintain the pool, with the provision that if the pool shows a profit over its operating expenses the Department of Public Works is authorized to collect from it. So far this has not happened.

The Street Department assisted in moving the high tension line at the airport, and also constructed a culvert for which it was reimbursed by airport funds.

During the year a second hand Galion motorized grader was added to our equipment and has proved its worth.

The Street Department delivered 68 cords of wood to the Charity Department from the airport, which it cut from the fallen logs left by the contractor.

The Street Department also performed various other minor jobs as shown in the table of costs.

A considerable saving in gasoline has been effected as follows:

Gallons of gasoline bought	1941	1942	1943
	21,701	14,604	12,335

The Sewer Department maintained the various trunk, storm and combined sewers, manholes, catch basins, and services as in past years.

It built 2 new catch basins; rebuilt 1 manhole; rebuilt 24 catch basins and repaired 12 manholes and 38 catch basins. 6 new house services were laid.

The above rebuilt manhole was in West Street, opposite the U. S. Post Office, where the flow from two sewers—one running

west in West Street, and the other northwest under the block—was restricted because of the manner in which their confluence was connected to the larger sewer flowing west from this point. This constriction has now been removed and should materially help the storm flow in this vicinity.

The General Department of the Public Works Department maintained the park; dump and incinerator; bridges; guardrails; trees; conducted Clean-Up-Week; took ashes from the City Hall and did other miscellaneous jobs.

Records kept at the city dump showed an average of 15.51 tons of material were brought to the dump daily for 365 days. Of this amount 9.50 tons went over the dump, 5.27 tons into the incinerator, and 0.74 tons were garbage.

It was planned to set out more trees at the south end of Main Street Park to replace the stumps removed, but this was postponed following advice that the fungus that killed the other trees was probably still present in the earth, and that a delay of two years was recommended.

A considerable number of trees in the streets were trimmed or cut down after investigation by the Parks and Playgrounds Committee and subsequent Aldermanic authorization.

The Water Department bought two parcels of land. One of about 25 acres, known as the "Thompson Property," south of and adjacent to the present city-owned reservoir lot in the Town of Rutland, and one parcel of about 30 acres, known as the "Sawyer Lot" on the old "Cook Road," and located about one-half mile southeasterly of the junction of the Wheelerville Road with the main Woodstock Road.

Channel improvements and cribbing were done at the Water works head and the entrance and roadway from the town road were graded and gravelled with material taken from the newly acquired "Thompson Lot."

Records kept at the head showed a daily average per capita consumption of 173.1 gallons, or a total average daily consumption of 2,945,684 gallons. Compared with other cities this is an exceptionally high consumption and indicates a probable waste due to careless use and leaking fixtures. By comparison, in Burlington where all services are metered, the average daily per capita consumption is 65.1 gallons.

Rutland has an exceptionally fine water supply and because of this, and work previously done on its piping system, enjoys a preferred insurance rate that saves local policy holders many thousands of dollars yearly.

As in the past daily samples of water were sent to the State Laboratory for analysis with uniformly good results. The daily dosage of chlorine was increased from 15 to 20 lbs.

The Water Department revenue for the year was \$52,723.09, and the annual cost was \$25,268.61 for maintenance and operation and \$1,504.50 for purchase of land, leaving a balance of \$25,949.98 to be used for general city purposes.

The Water Department furnished a caretaker for the swimming pool during its operation, and maintained its plumbing, chlorination, filtration, etc.

At present there are 328 hydrants, of which 20 are private; 1,171 valves; 4,236 services—including four which were installed this year. There is a real need for the installation of 356 valves in the present system, and this should be started when materials are available.

The engineering work of the Public Works Department has been mostly of a routine nature—giving street line and grades; making measurements and records for the street, sewer, general and water departments; surveys and measurements for surface treatment.

Surveys have been made and plans completed for paving approximately one mile of streets for post-war planning.

Surveys of land were made and lines run on the Mendon watershed property, and a number of marble markers were set on corners at the reservoir property.

In connection with the Victory Garden project 130 lots for planting were assigned.

During the year W. V. Kallio, formerly with the Vermont State Highway Department, replaced Edward Crowley as assistant to the City Engineer, and Clifford B. Wilson replaced John Quigley in the office.

The work done in the WPA was concluded early in the year and consisted of finishing a job of increasing the size of a sewer formerly laid by the WPA in Crescent Street.

It is a pleasure to say that all expenses have been kept within the current income and that there is a balance of \$13,790.99 for the year.

In concluding this report I wish to express to His Honor the Mayor, and to the Honorable Board of Aldermen my sincere

## CITY OF RUTLAND

appreciation of their courtesy and helpful suggestions during the year. To the other city officials I extend my thanks for their willing cooperation at all times.

To the citizens at large goes my appreciation of their sympathetic understanding of the difficulties of administering the department under wartime restrictions, and to all employees of the Public Works my thanks and appreciation for their loyalty and their intelligent and cheerful performance of duty, often done under adverse conditions.

Respectfully submitted,

R. H. ROYCE,

*Commissioner of Public Works.*

## Report of the PENSION BOARD

**Net Cost to City—\$29,209.78**

*To the Honorable City Council:*

Gentlemen:

For the sixth year of its operation, the City of Rutland Pension Plan which became effective January 1, 1938 has resulted in a net cost to the City of \$29,209.78. This figure is explained as follows:

Total Premiums paid to Insurance Co.....	\$31,282.26
Total Benefits paid to Pensioners.....	5,462.85
<hr/>	
Less total amount of Employees' Contributions	\$36,745.11
	7,535.33
	<hr/>
	\$29,209.78

Since the start of the Plan, nineteen employees have been retired. Of these six have died, leaving thirteen who are still on the retired list. Two more will reach the retirement age in 1944.

At the present time there are 152 contributing members, 78 from the School Department and 74 from the other departments of the City.

Several meetings of the Pension Board have been held for the granting of pensions, the issuance of permits to continue employment after the voluntary retirement age, and for the transaction of other business necessary to the successful operation of the Plan.

At present there are fourteen members of the Pension Plan in the armed forces: Frederick Atherton, Robert Lorette, Raymond Mooney, William Murphy, Arthur Olson, James Rice, Joseph Simonds, Lloyd Flaitz, John Davis, Helen Bailey, Edward Crowley, Edward Earle, Thomas Ross and Dwight Olson.

The budget requirements for 1944 will be \$29,000.00.

Respectfully submitted for the Committee,  
ESME A. C. SMITH,  
*Chairman.*

## Report of the FIRE DEPARTMENT

Expenditures—\$52,324.84

To the Honorable City Council:

Gentlemen:

I hereby submit to you my report as Chief of the Fire Department for the year of 1943.

The personnel of the Fire Department consists of one Chief Engineer, two Assistant Chief Engineers, two Captains, fifteen firemen and twelve call men. Also thirty Auxiliary firemen.

The Auxiliary firemen have attended drills and meetings every Wednesday evening since May 9, 1941, and have responded to all major fires occurring since that time. They did exceptionally good work at the two major fires that occurred during 1943.

The apparatus consists of three 750 G. P. M. triple combination trucks, one 750 G. P. M. quadruple truck, one 75 ft. aerial ladder truck, a one-ton service truck and a sedan.

We received a 500 G. P. M. trailer truck from the federal government equipped with minor fire fighting tools and 600 ft. of fire hose.

## FIRE DEPARTMENT

45

The department responded to four hundred three alarms during the year and to eighteen special service calls of various nature. The final adjustment of the fire loss is not ready at this time but the fire loss for 1943 will be approximately \$85,000.00. This is somewhat larger than usual due to two major fires on Center street, causing a loss of \$49,107.62.

The total value of property endangered by fire was \$661,889.55 and the total insurance carried was \$619,386.85. There were also twenty-six fire loss claims paid on fires that the department was not called to. These claims were from \$6.00 to \$361.20 and the total paid was \$1,477.86. There were also losses not covered by insurance amounting to \$3,500.

The cost of operating the fire department was \$52,324.84 of which \$46,597.33 was for salaries and \$5,727.51 for general maintenance. The inventory value of the fire department amounts to \$70,109.00.

Six regular firemen and three of the substitutes are now in the armed forces scattered in all of the war zones.

I would like to recommend for a part of the post-war program, the construction of a new fire station, fire alarm headquarters and drill tower on the property owned by the city at Woodstock avenue and Deer street.

I wish to thank all of the members of the fire department, the members of the auxiliary, the department of public works and the police department for their cooperation and assistance during the past year.

Respectfully submitted,  
ALFRED H. KOLTONSKI,  
*Chief Engineer.*

The department still seems to be under adjustment, Officer Ryan was inducted into the Marines, making a total of three men in the armed forces from this department. Officer John Mangan passed away after an extended illness, ending several

## POLICE DEPARTMENT

years of faithful service. Officer Wissell applied for a year's leave of absence in 1942 and failed to return in 1943 when his leave expired. Officer Geno Franzoni terminated his employment with the department to become Sheriff of the County.

Six new officers were appointed as regulars, two of these to replace the two in the armed forces. This makes a total of sixteen officers and I believe that they will be needed after the war.

I attended the National Police Academy at Washington and plan to conduct a school for the officers on the force, passing on the latest methods for combating crime.

Due to the excellent cooperation of the Board of Aldermen and Mayors Temple and Carpenter the department is steadily progressing. Much interest has been shown in a radio for the patrol cars and the installation of a radio and other needed equipment after the war would place this department on a par with any in New England.

HAROLD S. POTTER,

*Chief of Police.*

## OLD AGE ASSISTANCE DEPARTMENT

STATE HOUSE

Montpelier, Vermont

**Net Cost to City—\$20,038.50**

For the information of your taxpayers and because the program touches every community and a great number of its people, the customary annual statement is presented for inclusion in your city report.

The Vermont Old Age Assistance Program is in its ninth year of activity. Nearly 11,000 Vermonters have received the benefit of its services and payments. It has proven a dignified and reliable method of relieving uncertainty, distress and need in old age.

To date, about 8½ million dollars has been expended in the state. The number currently receiving assistance is 5,400 persons. This is about 15% of the estimated number of persons over sixty-five years of age. Since the beginning of the program, the entire expense of administration has been 4.2%. The Social Security Board, Washington, D. C., has figures to show that, on a comparable basis, no other state has a better record for efficiency and economy.

Payments of Old Age Assistance to persons applying from your city amounted to \$53,348.75 during the year January 1, 1943, to December 31, 1943.

The number of recipients in December, 1943, was 213.

The increase in the cost of food, fuel, rents and services constitutes a serious problem to persons dependent on small fixed allowances and has been the cause of much concern to the Old Age Assistance Department.

The advice and council of local officials and interested persons has been very valuable, and is gratefully acknowledged by the Director, his associates and field staff.

Very sincerely yours,

W. ARTHUR SIMPSON,  
*Director.*

## Report of the HEALTH OFFICER

*To the Honorable City Council:*

Gentlemen:

It is the pleasure of your Health Officer to submit, herewith, his annual report for 1943.

The Health Department is composed of a three-man Board of Health and a Health Officer, who also acts as plumbing inspector.

Through this department is maintained the control of communicable diseases, inspection services for the maintaining of sanitary plumbing facilities, swimming pool and other places of public assemblage.

The following contagious diseases were reported and quarantined during the year 1943:

Measles.....	555
German Measles.....	75
Whooping Cough.....	73
Chicken Pox.....	61
Mumps.....	22
Scarlet Fever.....	16
Infantile Paralysis.....	1

The measles epidemic which began in late 1942 reached its peak in January, 1943 with 370 cases reported. This dropped to 75 in February and gradually decreased to but eight cases in June. The Scarlet Fever cases were scattered although eleven occurred in June with four of those in one family. Since June the contagious disease rate was very low there being but three cases under quarantine as the year ended. The one case of Polio was sent in to the Hospital in a terminal stage from a nearby town.

In May the annual vaccination program for Small Pox control was done. A total of 158 children from the first and second grade groups availed themselves of this service. The vaccinations were done by Drs. Hodsdon, Reedy and Beale of the Board of Health.

In October and November the Diphtheria immunization program was undertaken and a total of 179 children were inoculated by the members of the Board of Health.

354 samples of water from the city's taps were sent to Burlington for analysis. They were broken down into 1770, 5 CC portions. Of these, 34, showed presence of coliform organisms or slightly under 2 hundredths (.02) of 1% contamination. This speaks well for our city's water supply and its custodians, and on the several inspection trips made to the water shed, throughout the year, everything was found in excellent condition.

A total of 46 samples of water were sent to Burlington from the swimming pool during June, July and August. There were six contaminated samples—all found during the early season. The conditions were rectified and during the latter part of July and all of August, there were no contaminated samples reported.

Two inspections of the city's schools were made during the year and conditions on the whole were good.

The Health Officer investigated 72 nuisance complaints and made three plumbing inspections.

On several occasions inspections of food handling establishments were made in cooperation with Mr. Cole of the State Department of Health. Conditions on the whole were good.

Seven cases of unattended death were investigated.

One venereal disease contact was investigated at the request of Navy officials.

In October it was again my pleasure to represent the City at the War Time Conference of the American Public Health Association. I feel that I gained much in enthusiasm and much in general knowledge of the responsibilities of this office. These responsibilities call for a working knowledge of preventive medicine which is the essence of Public Health, and the ability to put this knowledge to use for the betterment of the city. Extracts of the most of the material covered at this meeting are available at my office.

In closing I would like to express my appreciation for the courtesy and cooperation that I have received from the City Officials, the Board of Health, the School Nurses and the Physicians and Parents of Rutland.

Respectfully submitted,

CHARLES D. BEALE,  
Health Officer.

Board of Health  
WALTER G. HODSDON, M.D.  
JAMES J. REEDY, M.D.  
FRED BEAUCHAMP, Phg.

## Report of the DISTRICT NURSE

### City's appropriation—\$450.00

*To the Honorable City Council:*

Gentlemen:

The Rutland Missionary Association sponsors the district nursing service of this city.

Its purpose is the care of the sick and infirm, the welfare of the aged, and the care of children in homes of the less fortunate.

Emergency cases have been taken care of through the generosity of interested individuals, who have contributed clothing, furniture, and money. With funds thus received, medicine, milk, eggs, fruit, fruit juices, and food have been purchased.

Thanksgiving baskets were provided for many deserving families by the school children, through the school nurses, Miss Ann Hinchey and Miss Elizabeth Keefe.

At Christmas, many children were remembered with clothing and toys. Christmas dinners were distributed to 100 families through the generosity of the ELKS, EAGLES, SALVATION ARMY, MT. ST. JOSEPH CONVENT, SENIOR CATHOLIC DAUGHTERS, JUNIOR CATHOLIC DAUGHTERS.

Layettes, clothing and comforters were placed at my disposal through the City Charities Department.

Families visited.....	94
Calls made.....	2,306
Welfare calls.....	224
Prenatal calls.....	49
Maternity cases.....	8
Paid patients.....	19
Layettes distributed.....	20
Food.....	8
Clothing.....	33
Surgical dressings.....	27
Drugs.....	36
Furniture.....	9
Bedding.....	13
Money.....	5

CITY OF RUTLAND

The expense for the year has been as follows:

Salaries for nurses..... \$1,390.00

This was met by the City's appropriation of \$450.00 and fees from paid patients, which were \$716.00; the balance \$224.00 was paid by the Rutland Missionary Association.

July 1st, 1943, my salary was increased from \$1,200.00 a year to \$1,560.00.

In conclusion, I wish to express my appreciation to Mayor Temple and all in the Charities department, for their splendid cooperation at all times.

Respectfully submitted,

OLIVE H. WESTIN,  
*District Nurse.*

## Report of the WELFARE DEPARTMENT

### Net Expenses:

Charity, General—\$22,729.91  
Charity, Hospital—\$10,130.10

*To the Honorable City Council:*

I hereby submit the following report for the year of 1943.

The appropriation to the Department of Charities and Corrections was \$34,000.00. The department collected \$484.14 for support of families from other towns; \$576.87 from individuals; \$1,944.16 from other sources; \$400.00 was transferred to the hospital account. The gross expense amounted to \$25,735.08. The net expense after refunds was \$22,729.91. A balance of \$11,270.09 remained in Charity account at the end of the year.

The appropriation for the hospital was \$10,000.00. Refunds from Towns and Individuals amounted to \$856.44. The amount transferred from the General account was \$400.00. The gross expense was \$10,986.54 and the net expense \$10,130.10. A balance of \$269.90 remained in Hospital Account at the end of the year.

At the City Farm 18 inmates have been cared for and 126 transients have been accommodated.

I want to thank all City officials for their assistance and co-operation during the year and to those in the Charity Department for their efficient services.

Respectfully submitted,

O. S. BERGSTROM,  
*Overseer of Poor.*

## Report of the INSPECTOR OF BUILDINGS

*To the Honorable City Council:*

Gentlemen:

I herewith submit the following report for the year ending December 31, 1943:

New Houses.....	1
Complete Houses.....	1
Complete Additions to Houses.....	1
Repair Houses.....	4
Porches.....	8

Additions to Sheds.....	1
Barns.....	1
Repair Barns.....	2
Store Fronts.....	2
Store Buildings.....	1
Repair Business Blocks.....	1
Extend and inclose platform to Warehouses.....	1
Workshops.....	1
Additions to Restaurants.....	1
Storage Buildings.....	1
Repair Storage Bins.....	1
Fire Escapes.....	1
Temporary Buildings.....	1
Demolish Buildings.....	3

Respectfully submitted,

C. G. NOYES,  
*Inspector of Buildings.*

## Report of the MEAT AND MILK INSPECTOR

*To the Honorable City Council:*

I wish to make the following report of my activities as meat and milk inspector for the City of Rutland.

Monthly inspections of all meat markets have been made and their conditions reported to the aldermen.

All animals killed in the city for human consumption have been inspected and doubtful carcasses have been rejected and destroyed. Inspection fees to the amount of \$1,372 have been received and turned over to the city treasurer.

Periodic inspections have been made of all farms, dairies and creameries licensed to handle milk and cream in the city and their condition reported to the aldermen. Milk licenses have been issued to the amount of \$363 and has been turned over to the city treasurer. Approximately 425 milk samples have been taken and been analyzed by the Laboratory of Hygiene in Burlington.

Respectfully submitted,

N. H. COX,  
*Meat and Milk Inspector.*

## Report of the CITY ATTORNEY

*The Honorable City Council,  
City of Rutland, Rutland, Vermont:*

Gentlemen:

I hereby submit my report as Attorney for the City of Rutland for the year 1943.

At the present time the City is a party defendant in a suit for Ten Thousand Dollars (\$10,000.00) brought by Elyse K. Robert of the State of New York against the Rutland County National Bank of this City in the United States District Court, and is the plaintiff in a suit brought by the City of Rutland against the Town of Brandon for the support of a pauper, now pending in the Rutland County Court.

A number of justice suits have been brought during the year by the City Attorney for the collection of delinquent taxes, which resulted in the paying of these sums to the Tax Collector. In cooperation with the Overseer of the Poor various accounts were collected that were due the City Charity Department, and various individuals, suffering from mental illness, were committed to State Institutions.

A complete revision of the City Charter was made by the City Attorney and the Revision Committee of the Board of Aldermen and is now in effect. The passing of these revisions by the Legislature made necessary the appearance of the City Attorney before various committees of the Legislature, during the last session. The work of revising and modernizing the City Ordinances is now nearly completed, and a large number of these revisions have already been passed and put into law by the City Council.

The City Attorney was called upon for a great number of legal opinions during the year, from the various City Officers and Departments and these have been rendered as promptly as possible in each instance. A number of contracts were drawn during the year in behalf of the City and the usual letters were written to Parking Ordinance violators, resulting in the collection of fines. The development of the Airport Property in Clarendon has required a considerable amount of time from this office in a settlement of tax matters with the Town of Clarendon, and with the making of agreements with adjoining land owners.

It is a source of gratification to this office that the former Colonial Marble Company is about to commence industrial operation, primarily, as a result of the Court Proceedings in Wilmington, Delaware, and the Tax Sale held by the City of Rutland.

Your City Attorney has made a practice of attending almost all Council meetings during the year in order to be ready to render legal advise if such was needed.

In closing, I would like to express my appreciation for the unusually fine courtesy and cooperation that I have received from Mayor Temple, the Charter Revision Committee, the Board of Aldermen and all of the various City Officials and Departments.

Very truly yours,

MILFORD K. SMITH,  
*City Attorney.*

## Report of CONSTABLE AND TAX COLLECTOR

*To the Honorable City Council:*

Gentlemen:

I respectfully submit the following report of my work as City Constable and Tax Collector for the year 1943.

**The collection of delinquent taxes turned over to the City Treasurer amounted to \$19,727.72 from January 1st to December 31st, 1943.**

During the year just passed, 1,008 Poll, Old Age Assistance and Flood Taxes were collected covering the years 1935 to 1943, inclusive. Considerable number are making weekly payments, who are unable to do otherwise, and this enables them to pay their liability to the city.

Several tax sales were advertised after every effort was made for payment of the taxes that were in arrears for several years and property disposed of.

I wish to express my thanks and gratitude to His Honor, the Mayor, The Honorable Board of Aldermen, the City Attorney, and all department heads and assistants for their aid and excellent cooperation given to me at all times.

Respectfully submitted,

JOHN J. CARBINE,  
*City Constable and Tax Collector.*

## Report of the CITY CLERK AND PURCHASING AGENT

*To the Honorable City Council:*

I hereby submit report of activities in the Clerk's office for the year 1943.

A total of \$8,041.15 was collected and turned over to the City Treasurer. This amount represents licenses issued during entire year of 1943, and clerk's fees for recording, etc., from April 1st, 1943 to the close of the year.

Due to war conditions, which prevent the manufacture of new automobiles, radios, oil burners, etc., the recording fees during the year 1943 were considerably below the average. In normal times a large proportion of the fees are derived from recording of conditional sales contracts. Also due to the war conditions and War Production Board restrictions, construction of new buildings in the City is at a standstill, and this reflects upon the number of real estate transfers.

The revenue received from the sale of city licenses and permits during the year 1943 was also below normal. Several gasoline pumps and signs, located on city property, for which license fees were paid annually were removed. The number of licenses issued to tourist homes dropped sharply. The number of beer licenses issued was five under the number for 1942. 1,008 dog licenses were issued in 1943.

The volume of work and the variety of duties performed in the Clerk's office is ever increasing. Passage of the social security law, and old age pension laws in the various states, which require detailed records of vital statistics from individuals, has considerably augmented our duties. A considerable amount of the time of the employees is taken up in the completion and certification of forms in connection with boys and girls in the Armed forces, for which no charge is made.

The grand list is compiled and real estate, personal and poll taxes are computed in this office. Checks are drawn for the approval of the Board of Finance, in payment of all bills, payrolls, etc., exclusive of the departments of education and charity.

The Clerk is charged with the complete conduct and supervision of elections (preparation of check lists, etc.).

## CITY OF RUTLAND

Fishing and Hunting licenses are sold here under the supervision of the Fish and Game Department of the State of Vermont. Approximately 1,800 licenses are sold annually, and the amount received from such sales is remitted to the State Treasurer. The fees allowed on such licenses under the Law of the State of Vermont have been turned over for the year 1943 to the City Treasurer.

The Clerk acts as Purchasing Agent for all City Departments. While the purchases in 1943 were less than in other years, due to inability to obtain materials, the filling of priorities, etc., as required by the War Production Board, involves much additional work.

A report of Vital Statistics follows:

## VITAL STATISTICS

Total number of births registered in 1943.....	611
Total number of marriages registered in 1943....	110
Total number of deaths registered in 1943.....	345

In closing, I would like to express my appreciation for the courtesy and cooperation which I have received from all city officials and especially to his Honor, the Mayor, and the Board of Aldermen.

Respectfully submitted,

HENRY P. BATTLES,

*City Clerk and Purchasing Agent.*

## Report of RUTLAND AIRPORT COMMISSION

*To His Honor, the Mayor, and City Council:*

Following is the report of the Rutland Airport Commission, appointed by the Mayor under provisions of the City Charter:

The Commission kept in touch with progress of work by the United States Army Engineers on MacArthur Field, Rutland's airport in Clarendon, until the federal government's part of the work was completed in September, when the Commission took jurisdiction over the field.

Due to the Commission's work during construction of the field by the U. S. Army Engineers, and through the cooperation of Capt. E. Fletcher Ingalls, regional supervisor of the Civil Aeronautics authority, government funds were secured for the construction of three culverts, not included in the original plans. This saved the city a matter of several thousands of dollars.

MacArthur Field was turned over to the city by the government at the end of September with the two runways completed, flanked on both sides of said runways by two safety trips. A modern boundary lighting system has been installed and is in perfect working order. A beacon for the use of flyers at night-time is also installed and in working order.

In September, citizens of the city at a special city meeting, voted to approve expenditures of the sum of \$60,000 for construction of a hangar, administration building and other improvement work at the airport at such a time as materials and manpower is available. The commission is studying the plan of erecting a wooden hangar at the airport during the coming summer. However, this may be impossible if the materials cannot be secured.

For caretaker and watchman during the winter months, the commission secured the services of Reginald Wilson of East Clarendon, whose home is located across the road from the airport access road. He has made a constant check-up of equipment and has tested the boundary lighting and beacon lighting system once each week.

Due to the fact that there was no possibility of operations at the field during the winter, no effort was made this year to plow the runways. The commission believes that the expense entailed would not be warranted by the limited use of the field.

The commission has been represented at all major New England aviation conferences by the chairman and has received valuable information on possibilities of aviation and how to exploit these possibilities.

At least one large airline, Colonial Airlines, Inc. of New York City has made application to the Civil Aeronautics board for permission to establish an airline stop here on a proposed route from New York to Montreal. In this connection the commission is now working on a survey which will show the Civil Aeronautics authority that there is definite need in this city and surrounding area for air transport service for mail and passengers. Inasmuch as most airlines do not intend to expand their present facilities until at least the European phase of the war is concluded, it may be some time before airliners stop at MacArthur Field. However, all things necessary to put the city on airlines is being done and will be followed up in the future.

This commission is new to the airport and airplane business and realizes it has a lot to learn. However the commission has enjoyed the aid of a number of men in meeting the tasks it has already been confronted with. We mention in this connection the appreciation felt for the advise and friendly cooperation of Richard H. Royce, commissioner of public works; the legal advice and cooperation rendered by City Attorney Milford K. Smith; the cooperation of the aldermanic airport and ordinance committees; and the friendly cooperation of Capt. E. Fletcher Ingalls of the CAA and Harry J. Lichtenstein, resident United States Army Engineer, in charge of the airport construction.

Lastly, Mr. Mayor, we appreciate your aid during the year and hope to enjoy the same spirit of cooperation from you and the other members of your city personnel during the coming year.

A financial statement on the airport operating and construction expenses during 1943 appears in the City Finances section of this report.

Respectfully submitted,

RUTLAND AIRPORT COMMISSION,  
Gerald E. McLaughlin, *Chairman*,  
George C. Cobb, *Secretary*,  
Carleton Wilson

"WHILE BIG LEAGUE SCOUTS LOOKED ON"

## Report of the SUPERVISOR OF RECREATION PROJECTS

Expense to the City in 1943—\$1,613.08

To the Honorable City Council:

Gentlemen:

I hereby submit my report as Playgrounds Supervisor for the City of Rutland for the year 1943.

The City of Rutland revived and financed a Playground System for the first time since the early depression years. The total expenditures for this very badly needed project were \$1,613.08 with the expenses divided between equipment and salaries. The need of a public playground system had been apparent in Rutland for some time. The results of this system were fully appreciated by the boys and girls attending the playgrounds this past year, and by adults who were quick to note the wise use of leisure time offered by a playground system.

The playgrounds operated for an eight week period, and were supervised by ten instructors working under my daily guidance. Weekly meetings, held every Monday, were very helpful in the planning and execution of our programs. I wish to thank these young instructors for their cooperation and their ability to develop

into faithful and reliable assistants as the season progressed. The following playgrounds were open and were supervised by these instructors:

Dana—Tom O'Brien and Jean Smith  
Park—David Molenoar and Barbara Hinckley  
St. Peters—Ken Walker and Gladys Bolgioni  
Watkins—Dan O'Rourke and Jean Fisk  
Lincoln—Earl Clifford and Mildred Moore

General Playground activities included the use of such standard equipment as swings, teeters, sandboxes, basketball courts, volley ball courts, badminton sets, horseshoe pits; the playing of playground games for the various age levels; and story telling. This general activity was supplemented by inter-playground competitive games. Baseball leagues for senior boys, junior boys and midgets were carried on. The girls competed in slugball and volley ball leagues. The playground season saw "special" days every week when the following tournaments or contests were run off: horseshoe tournament; basketball free-throw contest; badminton tournament; swimming meet; field and track meet. Points were awarded for winners and different place contestants in all of these activities. Total points secured determined the Playgrounds Championship which was won by Lincoln Playground after a close race with St. Peters. A huge banner, symbolic of the championship, will be presented to Lincoln Playground this year. To complete our program, each playground was given a free morning at the swimming pool. Here, they were instructed in swimming by Miss Mavis Bradder, pool supervisor.

The highlight of the season came on the last day when a huge Field and Track Day, sponsored by Rutland Lodge of Elks, was staged. Competition in field and track events and exhibitions between the various Championship teams and All-Star teams picked in such sports as baseball, volley ball and slugball were held. Ice cream and "cokes" were furnished to all. Some five hundred children enjoyed this fine day. At the end of the activities, five hundred dollars in stamps and bonds were awarded to the season's athletic winners, and to boys and girls selected for their American ideals by Joseph Abel, Exalted Ruler of the Elks. The Elks and their committee chairman, Claude Vaillant, are to be congratulated on their civic consciousness.

The future of our Playgrounds seems bright. The new and higher appropriation of \$2,300.00 for playground activity in

1944 will allow us to build additional swings and teeters at the playgrounds where they are needed. We will be able to improve the quality and quantity of equipment needed for games and activities. A longer playground period of nine weeks is assured. A determined effort to provide a better program for our smaller children is our immediate challenge. With last year's program being a definite success, we can use this experience in taking the definite steps for a better program for the little tots.

I wish to thank His Honor, Mayor Temple, and other City Officials, especially the Playgrounds Aldermanic Committee, consisting of Aldermen Johnson, Carbine and Sherburne, whose cooperation in every way made my work extremely happy. The youth of Rutland are very fortunate in having Public Officials who are interested in their welfare and future.

Respectfully submitted,

LEO F. KEEFE,  
*Playgrounds Supervisor.*

*Picture Furnished by Rutland Herald*

## Report of the SWIMMING POOL MANAGER

**Net cost—\$2,127.12**

*To the Committee on Parks and Playgrounds,  
Board of Aldermen, City of Rutland:*

Gentlemen:

The following is a summary of the complete report of the Swimming Pool management on file in the office of the City Clerk.

During the season of 1943, lasting from June 21 to August 29 inclusive, the pool had a total patronage of 16,402, with an average daily attendance of 234.3 persons; about 96% were children.

Total receipts from admissions amounted to \$1,462.94 as compared with operating expenses of \$1,629.99, resulting in a deficit of \$167.40. In addition to this, Mr. Royce, the City Engineer, expended \$497.13 of an appropriation of \$500 for major repairs to the foundation of the pool before the season

## CITY OF RUTLAND

opened. Altogether the city spent \$664.53 on maintenance of the pool building and grounds.

For this expenditure the people of the city had available a modern version of the "old Swimmin' hole" but subject to a complete system of sanitation, safety and supervision.

Water for the pool was taken directly from the city drinking-water system, then constantly filtered and rechlorinated. The pool was drained and scrubbed on an average of every two weeks, and all toilet and locker room facilities were maintained in a clean and antiseptic condition at all times. Altogether, our citizens, young and old, had the cleanest, safest outdoor swimming place of any community in Vermont.

Supervision and instruction was provided by a corps of five lifeguards, including Miss Mavis Bradder who conducted free classes in elementary and advanced swimming and lifesaving.

A definite set of rules to promote safety and sanitation was adopted and strictly enforced. Disciplinary action was seldom necessary as most of the patrons realized and appreciated the efforts that were being made to make the pool of maximum pleasure for all who used it.

Further improvements in both management and maintenance are possible, and the Board of Aldermen has already included in the budget for 1944 provisions for painting the pool floor and walls, relocating shower and foot baths, and many other important changes that should result in better conditions and consequently increased attendance and revenue.

It was a pleasure to have had charge of the pool under conditions of such complete cooperation from the public, city officials and other employees.

Respectfully submitted,  
E. R. PURDY,  
*Manager.*

## REPORT OF AUDITORS

February 24, 1944

To the Honorable City Council:

Your auditors have audited the books of the City Treasurer, City Clerk, Overseer of Poor, Superintendent of Schools, City Constable and Sinking Fund Commissioners, from January 1, 1943 to December 31, 1943, inclusive, and we hereby certify that in our opinion, they have duly accounted for all monies received by them, as evidenced by the books and records on file.

We find the records of disbursements as shown by the City Clerk and Superintendent of Schools in agreement with the entries on the books of the City Treasurer. We have checked the cash and verified the bonds, deposit books and securities in the hands of the City Treasurer and Sinking Fund Commissioners and have checked incomes back to their original sources of entry and found them to be correct.

The books of the City Treasurer are in their usual excellent condition and very clearly show the city's financial condition on December 31, 1943, and the result of operations for the twelve months period then ended.

Respectfully submitted,

WILLIAM E. FLYNN,  
WARREN G. GOODRICH,  
A. TUTTLE PATTERSON,

*Auditors.*

## BIRTHS

## BIRTHS REGISTERED IN THE CITY OF RUTLAND, VERMONT

For The Year Ending December 31, 1943

Lull, Louise Ann	F	May 1	Orlo Charles	Julia A. Carpinello
Luncz, Stanley John, Jr.	M	Nov. 24	Stanley John	Helen F. Niebrydowski
Lynch, Rosanne Cecelia	F	Oct. 20	Francis Peter	Phoebe M. Doner
MacDonald, Malcolm Waterman	M	Mar. 28	John Malcolm	Janet Waterman
Mainolff, James Francis	M	June 11	Mario Joseph	Mary Anna Dziuba
Mangan, Juliana Durick	F	Oct. 18	Thomas Francis	Mary H. Durick
Mangan, William Payne	M	May 14	Williams Raleigh	Marion E. Payne
Manger, Leslie David	M	Dec. 13	Arthur	Shirley C. Lash
Marceau, J. Edward, 3rd	M	Apr. 24	J. Edward, 2nd	Mildred M. Leach
Marcelli, Eugenia Ann	F	Sept. 6	Robert Nelson	Evelyn D. Brisson
Marcy, Donald Richard	M	June 28	Joseph Edward	Susie E. Lynch
Maroney, Jean Anne	F	Mar. 12	John Patrick	Margaret E. Mitchell
Maroney, Mary Ann	F	June 14	Thomas Francis	Theresa A. Connors
Marro, Martha Anne	F	Sept. 22	James Charles	Margaret M. Hogan
Mathews, Ardell Louise	F	Mar. 11	Everett Russell	Phyllis M. Oliver
Mathews, Marjorie Emma	F	Sept. 4	Stanley Cyrus	Helena M. Alexander
Maurice, Timothy Page	M	Jan. 1	Clayton Henry	Bernice E. Chapman
Mayer, Benjamin Francis, Jr.	M	Jan. 31	Benjamin Francis	Alice C. Dahlin
Mazzariello, Judith Ann	F	Apr. 27	James Vincent	Fern C. Hodgson
Merchand, Donald James	M	Nov. 27	George William	Pearl E. McMahon
Miles, Cloyes Edmund	M	Dec. 5	Cloyes Ceylon	Nellie E. West
Minard, Carole Jean	F	Oct. 17	Gerald Lee	Florence N. Murray
Merrill, Gary Elton	M	Feb. 27	Gordon Earl	Marjorie J. Stone
Mock, Patricia Ann	F	July 26	Stephen Douglas	Antoinette M. Polcaro
Monahan, Donald Leo	M	Sept. 8	Alvin L.	Gladys E. Pockette
Mondella, Jane Carol	F	Sept. 24	Joseph Anthony	Catherine A. Jakubiaik
Mooney, Mark Joseph	M	Feb. 16	Edward Richard	Margaret M. Delaney
Moore, Barry Dean	M	Mar. 28	Harlan A. Moore	Ethel R. Maxham
Morgan, Phyllis Marie	F	Aug. 3	Stanley Alan	Marion I. Rice
Morris, Robert Griffith	M	May 15	Merlin Arrighi	Dilys M. Thomas
Morse, Erle Houghton	M	Nov. 29	Rudolph Houghton	Marion E. Drown
Munger, Phyllis Jean	F	May 15	Francis Leonard	Margaret F. O'Brien
Myers, Thomas Oliver, Jr.	M	Aug. 1	Thomas Oliver	Irma M. Lang
McCall, Kenneth Elliot	M	May 16	Oscar	Helen E. Kenfield
McCarthy, Anne Lucinda	F	June 16	George Edward	Kathleen S. Hayes
McCormack, Donald Patrick	M	Aug. 1	Patrick William	Dorothy L. Nelson
McCue, Rosemary	F	June 4	Gerald Bernard	Loretta B. Loveday
McDonald, Therese	F	May 14	William Bernard	Mary C. Burke
McDenough, John Franklin	M	Sept. 24	George William	Gertrude P. Johnson
McGee, Rita Marie	F	Nov. 27	Leo Fred	Mary H. Greeno
McGinnis, Maureen Mary	F	Jan. 22	Francis Edward	Naomi T. Brown
McKirryher, Ronald Ernest	M	Feb. 23	Ernest Herbert	Lola H. Read
McMahon, Mary Ann	F	July 25	John Matthew	Mary T. Hogan
Nagy, Doris Helen	F	May 9	Dennis, Jr.	Helen I. Douglass
Nash, Linda Ann	F	Sept. 3	Vere Langevine	Dorothy M. Hammond
Nichols, Donna Jean	F	Jan. 8	Donald N. Nichols	Helen Thomson
Nilsson, Sheila Mae	F	June 10	Swan	Winona M. Buswell
Noyes, Nancy Lincoln	F	Apr. 17	Donald Charles	Marion E. Lewis
Nye, Andrew Foster	M	Jan. 2	Foster Field	Neva M. Miller
O'Brien, Maureen Elizabeth	F	May 14	John Matthew	Anna M. Steele
O'Connor, Donna Lee	F	May 20	Edwin Thomas	Dorothy E. Hemenway
Odell, Helen Mae	F	Apr. 27	Clyde Hymen	Dorothy M. Brewster
Oles, Donna Mae	F	July 18	Frank Lafayette	Verna M. Alexander
Oliver, Barbara Ann	F	Feb. 15	Charles Earl	Florence E. Scarborough
Olson, Raymond Bernard	M	Sept. 27	Raymond Arnold	Patricia V. Candon
Owens, Nancy Mae	F	Dec. 18	Owen Griffith	Dorothy M. Brown
Padolechia, Marilyn Frances	F	Feb. 4	Remo Thomas	Evelyn F. Carpenter
Pafundi, Shirley Rose	F	Oct. 18	Canio Joseph	Mary J. Muscatello
Palmer, Mary Jane	F	Oct. 27	Hartwell Ernest	Helen P. Ryder
Palmer, Susan Kathryn	F	Nov. 12	Donald Rich	Regina M. Batchelder
Paolucci, Robert Joseph	M	Jan. 13	Dominic James	Mary C. LaVecchia
